FOR A LONG CRUISE.

The Yacht Azalea to Visit Every Island in Southern Seas.

The schooner-yacht Azalea is being fitted out at Sausalito for a long cruise in the Southern seas, says a late Call. It will be mainly a pleasure trip, but scientific matters will not be overlooked. The vessel is owned by Captain M. R. Roberts and she will be in command of Captain George Wesley Jackson, late of the British navy. Both the owner and captain have been all over Australasia and it is the intention of Captain Roberts to visit every island in the archipelago.

Captain Jackson is well known in San Francisco as a civil engineer, having been interested in the formation and building of Stow Lake and the beautifying of Strawberry Hill.

From that port the vessel will make for the Hawaiian Islands and from there will go to Samoa, Tongatabu, Fiji, Australia, New Zealand, the New Hebrides, Tahiti, the Marshall group and last but not least New Guinea. Every place will be thoroughly explored and in consequence the party expects to be gone at least three years. On his return Captain Roberts expects to have obtained a vast amount of valuable information and to have at least a boat-load of curios.

LEWIS & Co. W.W. DIMOND'S

In many parts of "the land of the free and the home of the brave" at this time of the year building operations are suspended, and every man has his eye on the coal dealer while watching the water pipes showing a tendency to freeze up. In Honolulu where spring is four seasons in the year, carpenters may work inside or out.

The unusual operations of the past year has had a depressing effect upon edge tools, for, like everything else, they give way with too constant use. We have, in view of the prospective demand, made a big buy of the finest grade of tools obtainable in eastern markets; they are what carpenters and machinists need all the time and when buying the best they get is that which lasts longest and obviates the necessity of "breaking in."

We have the Millers Falls Company ratchet brace, with drill attachment. The Elkin's saw file. Bailey's adjustable blade, wood and iron base planes. Steel tape measures, guaranteed to be accurate. Two-foot rules in ivory and bound with German silver. Olmstead's improved mitre boxes. The "New Roger's" foot power scroll saw with drill and emery attachments. These goods are all guaranteed first-class.

The "Australia" brought us a lot of goods suitable to all classes of people and we sell them to dealers or consumers. Person buying in quantities get the benefit of wholesale rates. Many of them do this because a penny saved is a penny earned.

We have California Apples, Kidney Potatoes, Whole Wheat Flour, Cream Flake Wheat or Oats and Morning Meal. These cereals are what every person with a regard for health should use. Then we have kits of choice Mackerel or Salmon Bellies, Navel Oranges, Herrings and Chipped Beef, Extra Fancy Creamery Butter in blocks or kits for family use. Extra large Bloater Mackerel (wholesale or retail), Fat Salmon Bellies (to trade or consumer), Sliced Lemon Cling Peaches, in 1 and 2lb. tin, largest variety of Cheese ever imported, Camembert, Kronen Kaiser Fromage de Brie and every known brand.

There are besides the above 43 different items; more than we have space to mention.

These goods are fresh by the "Australia" and there is variety enough for one to pick out a very respectable dinner menu. Our goods are well-known and the quality of them has never been surpassed in Honolulu. A telephone message will bring you what you want.
